

Valley Water Mill Equestrian Center YOUTH SUMMER CAMP—2018

Students will be immersed in equestrian activities all week long. After barn chores, students saddle up for the first ride of the day. Lunchtime is up at the house to cool down and work on art and craft projects. In the afternoon, there's another riding lesson followed by barn chores and other equestrian related activities. Weekly sessions may be repeated. Friday afternoon, students showcase their newly found skills to family and friends.
